

Contract for Service and Rental

Thank you for renting your yard announcement with Announce IT. I am honored to help you celebrate and look forward to setting up a great announcement.

Below are a few things that you need to know before I come and set up for you and your recipient.

- Announce IT is not responsible for HOA restrictions, or homeowner reactions.
- Please have all lawn services complete before your announcement is set up.
- Please make sure all dogs are restrained when I arrive.
- If it has been a few days of dry weather, and you can water the area where I will be placing the sign, I would greatly appreciate it. Hard ground makes it difficult to place the letters in the dirt.
- All announcements are staked in the ground with wire stakes. A company Announce IT sign with my phone # will also be placed in the yard and must remain there for the duration of my rental.
- I am happy to leave my business cards with you for your party guests. Please let me know in advance. I appreciate your referrals.
- Announce It is responsible for the set up and removal of your announcement. Please do not move or rearrange the signs.
- For the safety of your loved ones, please do not allow kids or adults to play with, sit on or handle the signs.
- Please do not use silly string near the signs, as the dye in the sting can cause staining.
- Please do not tie balloons or any other decorations to the signs or stakes.
- Any damage caused to the signs during the booked time may cause additional fees to replace.
- I love seeing my customers enjoy their announcements, and love receiving pictures you may capture of yours. You may text those to me.

THANK YOU!
